

Product Information

Horse Serum and Donor Horse Serum
 Cat. No. HOS-1B, HOS-1A, DHS-1B, DHS-1A

General Information

Horse Serum and Donor Horse Serum contain more immunoglobulins than Fetal Bovine Serum and have increased protein content. They are a cost-effective alternative to Fetal Bovine Serum.

Donor Horse Serum features a controlled collection of the raw serum. In contrast to slaughtered horses, donor horse serum has a lower endotoxin content and exhibits a lower level of batch to batch variation.

Features:

- Alternative to Calf Serum
- Suitable for ES cell culture
- Autologous cell culture system
